NB30

Built for durability

Productivity on the move can be pretty challenging, but the **Samsung NB30** won't let you down.

Its robust and stylish design features a unique S pattern and scratch-resistant casing to reduce the risk of marks and scratching. An innovative Hard Disk Drive (HDD) free fall sensor also protects your valuable data by automatically parking the HDD if you accidentally drop your netbook, while a seal around the system helps to prevent potential damage if liquid is accidentally spilled on its surface. With the NB30 you also don't have to worry about running out of power. It delivers an exceptional battery life of up to 11 hours* thanks to its energy efficient LED display, optimised processing and class leading engineering.

Intel® Atom™ processor

Based on an entirely new micro-architecture for 2010, the Intel® Atom™ processor increases energy efficiency to extend battery life, whilst delivering enhanced mobile performance and increased system responsiveness on netbook devices.

Longer lasting battery life

Set yourself free with the NB30's extended battery life. It delivers over 11 hours* of power to keep you going all day long. This exceptional performance is guaranteed by the energy efficient LCD display, optimised processing performance and Samsung's class-leading engineering. So you're always ready to go anywhere and do anything.

Protected against drops

It may seem obvious, but dropping your netbook is not good. Accidents do happen so that's why the NB30 features an innovative Hard Disk Drive (HDD) free fall sensor. If you drop your netbook it immediately senses the movement and the HDD is automatically parked so that your data is protected.

Durable Case

Life on the move can be challenging. But the NB30 won't let you down. Its robust and stylish design features a unique S pattern made from rubber material that prevents finger marks. And to reduce the risk of scratches its shock and scratch-resistant casing is more than capable of
