

Touch. Bend. Flip. Learn. Repeat.

THE NEW 300e CHROMEBOOK IS OPTIMIZED FOR CLASSROOM COMPATIBILITY.

Smart, sleek and super flexible, the 300e Chromebook is the total learning package. Its 10 pt. multi-touch display and 360° Yoga Hinge were designed to meet the ever-changing demands of today's digital classroom. Students can scroll, swipe and study simply by putting finger to screen. And the flexibility of the 300e's four different modes ensures it can easily adapt to any course curriculum. Add in a Front-Facing Camera that can snap and share pictures and you've got a machine that will help students exceed expectations. All of that innovation is backed by the security and simplicity of Chrome Education software, which provides versatile tools like Google Classroom and G Suite for Education that teachers, students and administrators all benefit from.

SMART TO THE TOUCH

What do an 11.6" HD 10 pt. multi-touch display and 360° Yoga Hinge have in common? They're tech for the touch-generation. The 300e is a true hands-on learning device with four modes of flexibility: Laptop, Tent, Tablet and Stand, so students can adapt their learning styles as needed. All that versatility leads to a better overall learning environment.

CONTROL. CONNECT. COLLABORATE.

Whether its a few devices or a fleet, the 300e is built to be shared amongst your student body. With tools like G Suite for Education and Google Classroom, students can use any device to access assignments on the cloud, collaborate with classmates or connect to popular education apps just by using their unique Google ID. Pair all that with innovative features like a Front-Facing Camera and you've got a machine that brings endless possibilities to every classroom.

DURABILITY DONE RIGHT

Drops, dents, spills, bumps; the new 300e is built to withstand them all—even a drop up to 75 cm. The machine's sleek, non-slip texture, rubber bumpers and reinforced ports keep it protected in class, at home and even in a locker. Plus, the mechanically anchored keys and water-resistant design provide added protection against potential water accidents. All-in, the 300e can handle even the toughest of tests.

BIG FEATURES, COMPACT CHROMEBOOK

The 300e may be light in weight (2.9 lbs), but it's big on power and performance. With up to 10 hours* of battery life, students can go from home to school and home again all on one charge. The Intel GLK Performance Processor or MTK Performance Processor provides unparalleled speed, so keeping up with fast fingers is no problem. Plus, every 300e comes equipped with ports for USB-C, USB 3.0, HDMI and more, making it easy to share files and project presentations.

*Based on Google Chrome Power_LoadTest, a battery run down test. For more information about Google Chrome Power_LoadTest, visit www.chromium.org. Test results should be used only to compare one product with another and are not a guarantee you will experience the same battery life. Battery life may be significantly less than the test results and varies depending on your product's configuration, software, usage, operating conditions, power management settings and other factors. Maximum battery life will decrease with time and use.

Lenovo 300e Chromebook

PERFORMANCE

Processor	Intel® Intel GLK Performance Processor or MTK Performance Processor
